WORK EXPERIENCE

Kasey Osman Insurance
Agency Operations & Systems Manager

June 2024 - Current
Melbourne, Florida

Promoted from Licensed Sales Producer to Technical Solutions Manager to Agency Operations & Systems Manager at an Allstate agency, owning systems architecture, automation, data governance, and cybersecurity.

- Built and documented 9 internal systems, 2 in daily production, including a file-naming compliance auditor.
- Launched AI-assisted underwriting-notice triage with a web board and two-way Slack updates for agents.
- Developed offline Windows apps for staff training and license exam prep, backed by 56 passing automated tests.

Avidyne Corporation
Customer Experience Systems Administrator

June 2022 - February 2023
Melbourne, Florida

A Systems Admin at Avidyne enhanced efficiency for aviation tech company's staff and clients, ensuring data accuracy and contributing to cutting-edge solutions in an \$8.5M company with 200+ employees.

- Created a data policy covering entry, design, naming conventions, branding, and tagging, resulting in a 20% drop in errors and revised data quality.
- Expanded functionality of CRM (Keap/Infusionsoft) and help desk (HappyFox) software, leading to a 30% improvement in user efficiency and a reduction in response time for customer support by over 10 minutes.
- Provided Tier II and III support, internally and externally, for software and technical issues achieving a 15% decrease in resolution time for complex technical challenges.

Paramount Foundation
Systems Administrator, Salesforce

March 2016 - March 2020
Bristol, Tennessee

Systems Admin at The Paramount Foundation developed data policies, enhanced donor management, streamlined Salesforce, and boosted overall systems efficiency for a \$3.3M non-profit with 10+ employees.

- Served as the Project Manager for two implementations of Salesforce (NPSP and Enterprise), resulting in a 30% improvement in donor management efficiency and a reduction in donation processing time by 5 days.
- Utilized Salesforce tools and apps (PatronManager and CongaComposer) for streamlined donation data entry and acknowledgment, eliminating over 30 manual tasks and boosting donor communication efficiency by 30%.
- Implemented onboarding for employees and volunteers on technologies (Salesforce, PatronManager, Slack, Google Suite, Clover POS), cutting onboarding time by 2 days and increasing proficiency by 25%.
